The screenshot displays the AZENTIO ONEBanking web application. On the left is a dark blue sidebar menu with a search bar and various navigation options: Dashboard, Configurations, Transactions, Application Details, Facility Details, Customer employment, Income, Customer debt, Repayment Details, Customer Reference, Customer debt islamic, and Customer Follow Up. The main content area is titled 'Customer Personal Information' and features a horizontal tab bar with options: Prev, Application Info, Customer details (selected), Additional Customer Info, Customer Financials, Facility Info, Document Details, and Next. The 'Customer details' tab is active, but the content area below it is empty.

(Step) AFTER\_STEP - stepdefinitions.  
HooksClass.addScreenshot(io.cucumber.  
java.Scenario)

(S) verify the availability of Add button on  
cuatomer details tab

(F) Check The functionality of the  
Personal Details App data Entry

This screenshot shows the same AZENTIO ONEBanking application, but the 'Search Customer' form is displayed within the 'Customer details' tab. The form includes a search bar at the top right with 'Search' and 'Clear' buttons. Below the search bar, there are four input fields arranged in a 2x2 grid: 'Customer Type \*' (a dropdown menu showing 'Select'), 'CIF ID' (a text input field), 'ID Type \*' (a dropdown menu showing 'Select'), and 'ID Number' (a text input field). The sidebar and tab bar are identical to the previous screenshot.
