HooksClass.addScreenshot(io.cucumber.  
java.Scenario)

(S) Product Master - Modify records  
(approve, reject and return) at maker  
stage

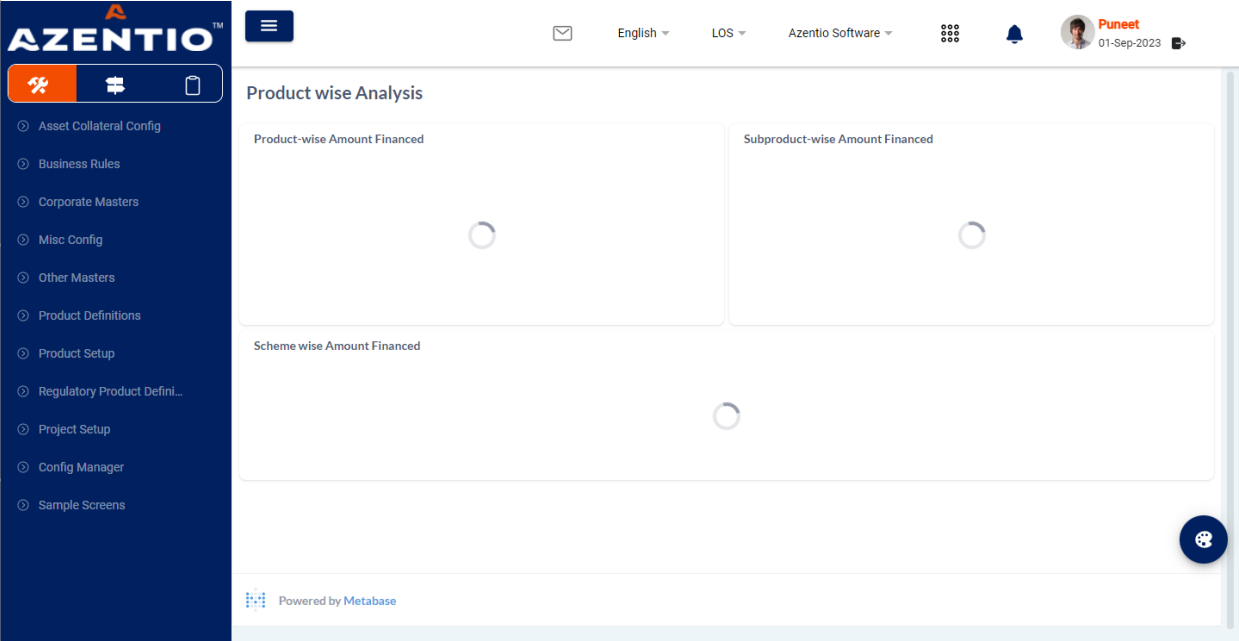

(F) Check the functionality of product  
master

The screenshot shows the Azentio Software interface. On the left is a dark blue sidebar with the 'AZENTIO' logo at the top. Below the logo are several menu items: 'Asset Collateral Config', 'Business Rules', 'Corporate Masters', 'Misc Config', 'Other Masters', 'Product Definitions', 'Product Setup', 'Asset Auto Master', 'Asset CD Master', 'Product master' (highlighted in orange), 'Sub Product Master', 'Regulatory Product Defini...', 'Project Setup', and 'Config Manager'. The main content area is titled 'Product Master' and features a table with columns: 'Action', 'Product Group', 'Product Code', 'Product Description', 'Retail/Corporate', 'Status', and 'Authorization Status'. The table contains four rows of data, all with 'In-active' status. At the bottom of the table, it says 'Showing 166 to 169 of 169 entries' with pagination controls. The top right of the interface shows user information for 'Puneet' on '01-Sep-2023'.

(Step) AFTER\_STEP - stepdefinitions.  
HooksClass.addScreenshot(io.cucumber.  
java.Scenario)

(S) Product Master - Modify records  
(approve, reject and return) at maker  
stage

(F) Check the functionality of product  
master

This screenshot is identical to the one above, showing the Azentio Software interface with the 'Product Master' section. The sidebar, table, and pagination controls are all the same. The table lists four product entries with 'In-active' status. The user 'Puneet' is logged in on '01-Sep-2023'.
