(F) Product Master Retail Functionality

The screenshot shows the Azentio Product Master Retail Functionality view workflow. The interface includes a top navigation bar with the Azentio logo, a hamburger menu, and user information (Puneet, 01-Sep-2023). The left sidebar contains a list of menu items: Asset Collateral Config, Business Rules, Corporate Masters, Misc Config, Other Masters, Product Definitions, Product Setup, Regulatory Product Defini..., Project Setup, Config Manager, and Sample Screens. The main content area is titled "Product wise Analysis" and contains three charts: "Product-wise Amount Financed", "Subproduct-wise Amount Financed", and "Scheme wise Amount Financed". The "Product-wise Amount Financed" chart is a bar chart showing the amount financed for various product codes. The "Subproduct-wise Amount Financed" chart is a line chart showing the amount financed for various subproduct codes. The "Scheme wise Amount Financed" chart is a line chart showing the amount financed for various scheme codes. The charts are all in a loading state, indicated by a circular progress indicator. The bottom of the page shows "Powered by Metabase".

(F) Product Master Retail Functionality

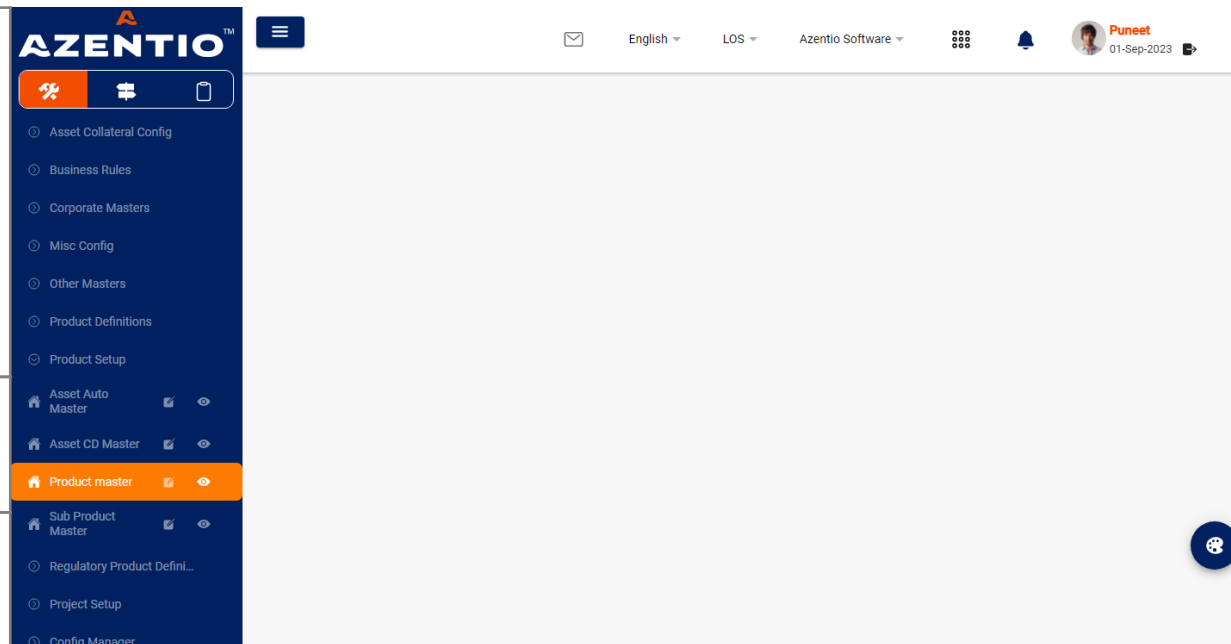

The screenshot shows the Azentio Product Master Retail Functionality view workflow with data. The interface is identical to the previous screenshot, but the "Product-wise Amount Financed" chart now displays data for various product codes. The "Subproduct-wise Amount Financed" chart is still in a loading state. The "Scheme wise Amount Financed" chart is also in a loading state. The bottom of the page shows "Powered by Metabase".
