The screenshot displays the AZENTIO ONE Banking Allocation Master interface. On the left is a blue sidebar menu with options: Dashboard, Configurations master, Due master, Product master, Pricing indicator master, Floating rate master, Employer master, Sub Product Master, SchemeMaster, BP Master, Bounce Master, Covenant Master, Allocation Master, Transactions, and Reports. The main content area is titled 'Allocation Master' and features a search bar with 'Demo' entered and an 'Export' button. Below this is a table with columns 'Action', 'Description', and 'Status'. The table contains five rows, all with a status of 'Active'. The first row has an action icon and description '1'. The next three rows have action icons and description 'Done12'. The final row has an action icon and description 'Allocation'. At the bottom of the table, it says 'Showing 1 to 5 of 22 entries' with pagination controls.

(F) Check the functionality of the  
Allocation Masater

This screenshot shows the same AZENTIO ONE Banking Allocation Master interface as the first one, but the table is empty. The search bar still contains 'Demo' and the 'Export' button is present. The table headers 'Action', 'Description', and 'Status' are visible, but there are no data rows. The pagination at the bottom indicates 'Showing 0 to 0 of 0 entries'.
