(Step) AFTER_STEP - stepdefinitions.
HooksClass.addScreenshot(io.cucumber.
java.Scenario)

(S) To verify the functionality of project master

(F) Check the functionality of project master

The screenshot displays the AZENTIO ONEBanking interface. The top header shows the date 23-Nov-2022, user profile, and language settings. The left sidebar is a dark blue menu with a search bar and categories: Dashboard, Configurations (with sub-items like Bounce Master, Covenant Master, Allocation Master, etc.), Transactions, and Reports. The main content area is titled 'Project Details' and features a table with columns: Action, Project Code, Project Name, Builder, Group, City, State, Maker Date, Checker Date, and Status. A single row is visible for 'MANOJA SOCIETY' with status 'Active'. Below the table, it says 'Showing 1 to 1 of 1 entries' with pagination controls. A blue circular icon with a white gear is visible in the bottom right corner.

(Step) AFTER_STEP - stepdefinitions.
HooksClass.addScreenshot(io.cucumber.
java.Scenario)

(S) To verify the functionality of project master

(F) Check the functionality of project master

This is an identical duplicate of the screenshot above, showing the AZENTIO ONEBanking Project Details page with the same table entry for 'MANOJA SOCIETY' and the same sidebar menu.

(Step) AFTER_STEP - stepdefinitions.
HooksClass.addScreenshot(io.cucumber.
java.Scenario)

(S) To verify the functionality of project
master

(F) Check the functionality of project
